

# THE VISIONEERS

The Visioneers International Network and Web of Good Work provides the opportunity to participate on a next generation global platform that celebrates and showcases people and projects who illustrate human nobility as models of our evolving humanity.

## WE AIM TO:

**Celebrate & Showcase** extraordinary projects and good work being done around the world with our global Web of Good Work and Virtual Expo.

<https://thevisioneers.ca/virtual-expo>

**Present Visioneers awards** to exceptional Visioneers for their excellent projects, and to feature their work in a virtual modern library called the Masterworks Emporium

<https://thevisioneers.ca/masterworks>

**Connect & Collaborate** by engaging through our next-generation online platform, to create a global community of support and mentorship and to grow the Wall of Stories.

The Wall of Stories features inspiring people and projects from around the world based on the UN 17 Sustainable Development Goals

<https://thevisioneers.ca/sdgs>

Our platform serves to display observable evidence that Humanity is one noble species, one family evolving towards goodness and that we are making progress on the 17 United Nations Sustainable Development Goals.

# Humanity's Golden Peace

Humanity's Golden Peace, written and presented by founders Dr. Geraldine Schwartz and Dr. Desmond Berghofer, presents the overarching Vision and Intention for the Visioneers International Network.

Humanity's Golden Peace is the safe harbour we need to deliver positive, creative solutions to the existential crises we face.

The overarching statement about the meaning of Golden Peace includes the absence of war and much more...

It includes creating a safe harbour where:

- Maternity hospitals are safe for mother and child.
- Schools from nurseries and kindergarten to grade 12 to universities are places where students feel safe to pursue learning and make friendships and where bullying of any kind is unacceptable.
- Workplaces are safe and free of discrimination.
- Justice, diversity, truth telling and following the rule of law are honoured.
- The disabled, the elderly and the poor are treated with respect and nurtured to contribute.
- Governments are chosen by a free and protected vote of the people.
- Human rights, including the rights of women, Indigenous people, and people of different beliefs, races and sexual orientations are respected.

*Looking after the Earth, the air, the water, ourselves each other and ensuring that all living creatures are respected is the prime underlying requirements of peace everywhere.*

# Pax Humana

**Pax Humana: The Peace of Humanity is a proclamation of the ultimate goal of humanity to live in peace locally and globally as one human family. It is grounded in the power of joy to produce creative solutions to complex problems.**

**Pax Humana,  
The Peace of Humanity,  
is a call to humanity  
to go beyond the concept of peace  
as the absence of war to a deeper understanding of the wisdom  
expressed for millennia  
by major religious traditions  
and indigenous communities,  
and now confirmed by science,  
that we are one.**

**On September 21, 2024, the United Nations International Day of Peace, the Visioneers International Network released a 15-minute video entitled “Pax Humana: The Peace of Humanity.” It described a bold new concept for humanity to turn away from a millennia-long story of conflict and war everywhere in the world and embrace a peace that would mean an end to the conditions that have divided humanity locally and internationally for so long.**

**The Visioneers have laid the groundwork for achieving Pax Humana over time by building platforms to showcase outstanding people and projects and their creative work to be an inspiration and guide for people to build a peaceful and sustainable future.**

**You can support Pax Humana by marching on the digital streets of the world to celebrate humanity’s magnificent achievements and goodness! You can create Visioneers leadership Circles of 3+ people to carry out projects locally and globally to contribute to Humanity’s Golden Peace.**

# Journey of Extraordinary Wisdom

## The Visioneers Course on Global Citizenship

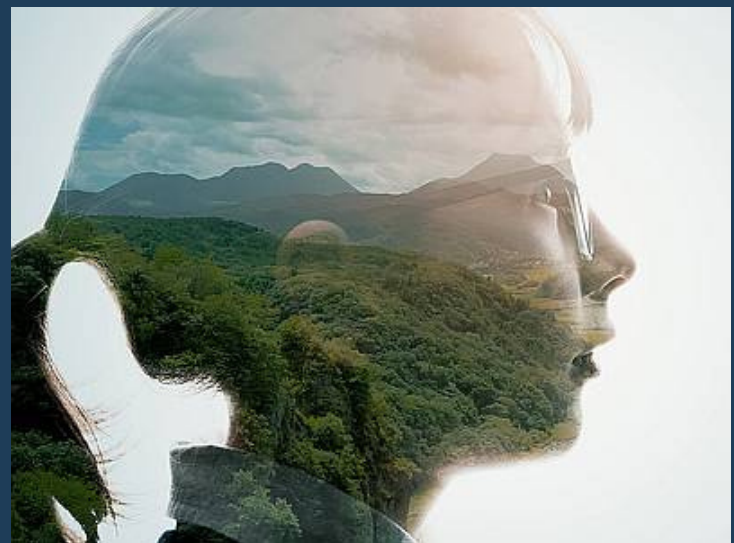

The Course is based on the Journey of Extraordinary Wisdom, which features the wisdom of ten outstanding thought leaders. Each present the legacy of their life's work in a video of one hour each, and each presentation is integrated with the next so that the big picture of what must be done for the planet and to become a global citizen is laid out clearly.

The science behind the wisdom is described so that it is clear why we need to act and demonstrates how we can be successful.

The Global Citizenship course structure is outlined in 'Each One Teach One' format where the six competencies declared by the Council of Ministers of Education of Canada (CMEC) are integrated in the learning.

These are the six CMEC competencies:

- Learning to Learn
- Critical Thinking and Problem Solving
- Innovation and Creativity
- Collaboration
- Communication
- Global Citizenship and Sustainability

The goal of this course is to create a global mind change and a new literacy in global citizenship.

After 10 weeks, the course methodology asks each group of learners to teach what they have learned. They are asked to consider applications in their own community and ideas for action as part of the course.

This acts as a review and prepares them to assist in teaching what they have learned or put it into action as they form and lead clubs and action projects.

The whole group project is then posted on the school platform for other schools to see.

The host school will then have multiple teachers to join their teachers to form clubs and to lead in new and positive ways that creatively promote a global perspective with exciting new local actions. Students will emerge with minds newly prepared to see the big picture, to make good, decent choices.
