At this moment of existential darkness in human history, the Visioneers are ingathering the global family of outstanding leaders celebrated in an international virtual exposition as Humanity's Web of Good Work.

Visioneers are telling a new story about human goodness and essential nobility, proclaiming that we will not allow ourselves to be defined by the egregious bad actions of the few.

Instead, as builders of the Golden Peace we underline our common resolve to be fierce warriors by Waging Peace.

The Peace Prize will be awarded October 24th,
on the 78th Anniversary of the United Nations.
